

# CHRISTMAS LIGHTING CONTEST

We know there are a lot of creative people living in our service area, and we want to challenge you to participate in our second annual Christmas lighting contest.

Once again, Anza Electric Cooperative, Inc. will sponsor a contest to see who makes the best use of Christmas lights.

The first-place winner will receive \$150, second place \$100, third place \$75, fourth place \$50 and fifth place \$25. The prizes will be credited to the winning individuals' electric accounts. Winners will be notified by mail, and will be announced in an upcoming issue of Currents magazine.

To enter the contest, fill out the application below, and mail it or drop it off at the cooperative office. Entries must be received in the cooperative office no later than **4 p.m. Friday, December 12, 2003.**

*Please be sure to follow the safety tips on the back of this page.*

**Have a safe and happy holiday season from your friends at  
Anza Electric Cooperative, Inc.**

Christmas Lighting Contest  
P.O. Box 391909, Anza, CA 92539

**Remember: Entries must be received no later than 4 p.m. December 12, 2003.**

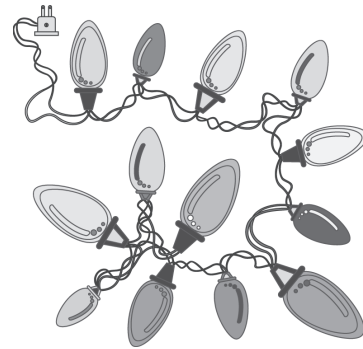

# HOLIDAY SAFETY TIPS

Plug into these holiday season safety tips from the Electrical Safety Foundation International:

- ◆ Carefully inspect each electrical decoration.
- ◆ Cracked or frayed sockets, loose or bare wire, and loose connections may cause a serious shock or start a fire.
- ◆ Don't staple or nail through light strings or electrical extension cords. You could damage the wire or insulation, which could lead to an electrical shock or fire.
- ◆ Don't overload extension cords or allow them to run through water or snow.
- ◆ Before using any light strings, animated displays or other electrical products outdoors, make sure the product is approved by a nationally recognized certification organization and marked "for outdoor use."
- ◆ Don't use electrical ornaments or light strings on artificial trees with metallic leaves or branch coverings. This could create an electrical shock.
- ◆ Turn off all electrical light strings and decorations before leaving home or going to bed.

Follow the use and care instructions that accompany your electrical decorations. Whether artificial or freshly cut, a tree should be kept a safe distance away from all sources of heat. Also, make sure the tree doesn't block any exits.

*For more tips, check out the Electrical Safety Foundation International's Web site at [www.esfi.org](http://www.esfi.org).*
