

Power Backup for Life-Support Equipment

On life support? We'll deliver a temporary backup battery during an outage — so you can stay safe and powered.

Doctors note will be required for participation

If you rely on electric powered medical equipment for your health, you know how important it is to have uninterrupted power to your device.

But what happens during an electric outage? As a member of Anza Electric Cooperative, you get the peace of mind knowing that we can help our members during outage events—planned or not.

We care about your well-being.

System will be:

- Loaned temporarily during outages
- Delivered directly to your home

This program is:

- Available to members who rely on life-sustaining medical equipment
- Simple to enroll — contact our office. 951-763-4333 ext. 219
